

Globy Coin Created to help the planet

Safe, fast, cheap and ecological.

Globy Coin, a Better World is within everyone's Grasp! We are a coin, which is safe, fast, economical and truly eco friendly. In its essence Globy Coin wants to create a better world, with benefits for everybody. we are going to start projects for the local environment, as well as global ones. While our coin is becoming stable, and able to produce these projects the initial investors will benefit from the ROI from the start. As the projects desire originates to create a better world, we need to reduce the heavy energy consumption, which is being caused by mining farms. As for blockchain technology mining, it is clear that we have reached a point of no return, looking from a environment friendly perspective, this is why globycoin has decided to implement the PoS Protocol, which reduces energy consumption tremendously, and is environmentally friendly and efficient. We believe this protocol will takeover the preference from mining in the near future, and with this we believe our Globycoin will become the most innovative currencies. Globycoin will be one of the safest, fastest coins to date compared to the competitors we have right now, through our projects and the coin we believe that everybody will be given a opportunity to earn money while investing in our planet to create a better environment, this is a true coin for everyone.

Priority goal of Globycoin

1. Is to help the poor and needy in disadvantaged areas of the globe. We can choose to donate local institutions or aid groups of the communities choice.
2. Will order to supplies of food, water, medicine, education, medical facilities, etc. However our main intention is to help educate the population so we can build a foundation and not just provide aid.
3. GlobyCoin will also to preserve local Environment, or even import plants and animals to help sustain the local ecosystem and help create a safe haven for endangered species of that region, which will create a natural oasis for the animals..
4. Our aim main aim is to be able to make these projects self sustainable, generating a profit from Masternodes, and Prices From Exchanges . Our Intention is to use 30% of the entire profit, generated by the Globy projects, to further develop and create new projects.

All investors, will help create not only a truly independent charity organization, but a organization that will continue to try and improve global environment issues, and with the help of the community, Globy Coin will add Improvements to the project in the future.

Coin specifications

Coin name : Globycoin

coin abbreviation : GLB

block reward : 777 decrease 5% every 250.000 blocks till to blocks 2.500.000

coin supply : 10.000.000.000

Algo : xevan

Block every : 120 seconds

premine : yes

premine percent : 5% = 500.000.000

coinbase maturity : 20

number of confirmation : 6

minimum coin age : 12 hours

pos interest per year % : masternode 75%,stakers 25%

to run a masternode : 150.000 coins

minimum transaction : 0.0001/Kb

maximum block size : 4 Mb

Pos difficult : retargeting every block

Road map

Q3-2018

Website launch
Coin launch
Bitcointalk announcements
Social network pages (Twitter, Facebook, Telegram, Reddit and youtube)
Bounty and airdrop
Masternode presale
Hire employees
Exchange listing

Q4-2018

Continuous development of the currency, blockchain and wallets
Exchange listing
Coinmarketcap or similar listing
Masternode.pro or similar listing
Start to donate to charitable associations

Q1-2019

Advertising Video Creations
Advertising events
Listing on medium exchange.
Wallet for ios and study for app android
Continue to donate to charitable associations

Q2-2019

Development of app " Civilization"
Development App for Android and ios
Implementing payments in Coinpayment
Reach out to Sponsors and Partners
Continuous development of the coin and wallets
Continue to donate to charitable associations

Q3-2019

Development of micro loans donation
Development of Globy gift card
Study about the Oasis project for Plants and Animals
Study about Independent charitable organization
Continuous development of the coin and wallets

Q4-2019

Continuous evolution on the whole project
Search and implement new technology
Continuous development of the coin and wallets

Q1-2020

Continuous evolution on the whole project
Continue to donate to charitable associations

Team

We are here to leave a tangible sign in the world of cryptocurrencies and we like to help people in need. We come from various parts of Europe, but the team is constantly evolving, no important member or false profile, modest people not hungry for profit, humble people who dedicate themselves to the cause, you will find us every day available on social channels, we want globy go to Mars, Thanks in advance.
